FUJ litigation*

June 19, 2025:

- Washington state's updated prevailing piece rates wages published.
- Updated prevailing piece rate wages available on WorkSource's [agricultural services webpage](#).

*ESD is not a party to FUJ litigation.

Type	Prevailing Piece Rate
Cherries, Bing, Harvesting	\$0.24 Per Pound
Cherries, Dark Red, Harvesting	\$0.27 Per Pound
Pears, Bartlett, Harvesting	\$25.90 per bin (47"x47"x24.5")
Pears, Harvesting	\$26.42 per bin (47"x47"x24.5")

Source: Agricultural Online Wage Library | U.S. Department of Labor

- 7 As a result of *FUJ* litigation, Washington State employers must offer and pay the prevailing piece rates on AEWR only job orders as of the date they are published. This order precludes the employer from paying hourly for these crops and tasks. The current prevailing piece rates are above and were published on 6/19/25.

Ag Clearance Order Waiver Update

► Submitted: Clearance Order Waiver to Department of Labor

Request:

On August 18, 2025, the Employment Security Department (ESD) submitted a request to waive subsection (b)(2) of the Wagner-Peyser Act regulation at 20 CFR 653.50.

*"(if) the job order for the ES office incorporates offices beyond the local office commuting area, the ES Office **must suppress the employer information** in order to facilitate the orderly movement of workers within the ES."*

Change:

If approved, this waiver would allow ESD to disclose the employer's name and location—while continuing to withhold direct contact information—to facilitate a more informed and orderly referral process.

September 10, 2025. Office of Foreign Labor Certification Announces 60-Day Public Comment Period on Proposed Revisions to H-2A Temporary Agricultural Labor Certification Program (OMB 1205-0466)

July 8, 2025. Department of Labor Publishes Notice of Proposed Rulemaking to Rescind the Final Rule, *Improving Protections for Workers in Temporary Agricultural Employment in the United States*

- Multiple suits in numerous states asking to enjoin parts or all of 2024 Worker Protection rule
- 6/20/25: USDOL announces it will no longer enforce the 2024 Worker Protection Rule
- 7/8/25: USDOL rescinds final rule and gives NPRM
- 8/27/25: ESD submits comments to USDOL

ASWS Response

- Awaiting final outcome from USDOL
- Staff training
- Technical guidance to employers
- Shift from presenting rule as "requirements" to "best practices"

August 28, 2025. OFLC Announces Update to Implementation of the 2023 H-2A AEWR Final Rule; District Court's Order Vacating the Final Rule

2023 AEWR Rule No longer in effect

2023 AEWR Rule required:

1. Bifurcating certain job codes out of traditional "Big 6" farmworker SOC's which are paid at AEWR
2. Filing separate applications to separate higher paying duties
3. Example: Farmworker + Shuttle driver duties.
 1. [Farmworker](#) (45-2092): \$19.82
 2. [Shuttle Driver](#) (53-3053): \$22.20
 Employer obligated to pay the higher SOC to all workers in the job order, even when those duties were not being performed.

USDOL implements the District Court's vacation of rule in all states

Impact:

1. USDOL can no longer require employers to separate out job duties and offer and pay the higher rate;
2. All farmwork tasks described can be paid the AEWR (or applicable prevailing wage (WA)).
3. Employers can include all job duties in one application and pay the highest applicable wage.
4. Description of duties does not as critical to determine wage.

Applicability

- Does not apply to contracts certified before 8/28/25 and employers must still pay the wages certified in the job order.
- New job orders filed – SWA must process according to pre-2023 AEWR rule.

What doesn't change:

Employer still must pay the *highest of* the AEWR, the prevailing hourly wage rate, the prevailing piece rate, the agreed-upon collective bargaining rate, or the Federal or State minimum wage rate.

August 25, 2025. Office of Foreign Labor Certification Announces Rescission of 2011 Frequently Asked Question Prohibiting the Staggered Entry of H-2A Workers

- USDOL FAQ guidance rescinded. [Federal Register :: Notification of Rescission of Frequently Asked Question Issued on July 22, 2011](#)
- **Action:** Rescinds informal guidance requiring a separate application(s) when the only difference among positions was the start "date of need" (same crops, duties, areas of intended employment).
- **Impact:** Employers can file one application indicating different dates of need and stagger worker arrival dates.

OMB Approval: 1205-0466
Expiration Date: 08/31/2022

RCW 50.75.060 Data collection

(1) Whenever the department conducts a field check or field visit of an employer, the department must collect the following information:

- (a) The number of H-2A workers the employer has at each work site; and
- (b) The actual geographic location of where the H-2A workers are living during their employment with the employer.

(2) The department must compile the information and compare the number of workers sought by an employer on the employer's H-2A application with the number of H-2A workers actually working for the employer.

(3) The department must make the information available to the advisory committee appointed under RCW 50.75.040 on a quarterly basis.

What is happening?

- Why Art and not Bertha?
- Change in field check process concern.

Possible result

If placement is not working as of the date of field check, USDOL suggests ESD may lose the connection to the employer

Potential Impact - less field checks conducted:

- Contract abandonment
- Turn around time

Next Steps:

- ESD plans to send a letter seeking to confirm whether we could still perform the field check
- We may know more next week after our NMA office meeting
