Introduction

Occupational Employment Statistics (OES) is a program of the U.S. Department of Labor, Bureau of Labor Statistics (BLS). This federal-state cooperative program produces employment and wage estimates for nearly 867 occupations.

Each year, the Employment Security Department's Labor Market and Economic Analysis division compiles occupational employment and wage estimates for Washington state. The data are presented statewide, for metropolitan statistical areas (MSAs) and for nonmetropolitan areas (NMAs). All data are at the cross-industry level. For more information go to <https://esd.wa.gov/labormarketinfo/occupations>.

Notes on estimates

These occupational employment and wage estimates are based on the spring 2020 Occupational Employment Statistics survey. Data collected from the survey includes employment counts, occupations and wages from more than 4,221 Washington state employers. Data from the spring 2020 survey are combined with the fall 2017, spring and fall 2018 and spring and fall 2019 survey panels to create a sample size of more than 26,474 employers. Wage estimates are updated to a March 2021 level using Employment Cost Index (ECI) factors. Employment estimates are benchmarked to an average of November 2019 and May 2020 employment.

The estimates in this publication are based on the 2010 Office of Management and Budget (OMB) area definitions, the 2017 North American Industry Classification System (NAICS) codes at the four-digit level and the full 2018 Standard Occupational Classification (SOC) code manual. Occupation and wage estimates are not provided for farms, the self-employed, owner/partners in unincorporated firms, the military, household workers or unpaid family workers. Estimates for some occupations or wage levels may be suppressed because they do not meet BLS publication standards or due to small sample size. These include occupations with an estimated employment of fewer than 10 people. Dashes shown in the data columns indicate suppressed data.

Estimation changes

The May 2020 percentile wages can be estimated to \$100.00+ per hour or \$208,000+ per year. All of the microdata in the estimates were collected under these newer wage intervals. National estimates, state estimates and more information about the program are available online at www.bls.gov/oes. If you have questions regarding the data, contact the Employment Security Department Labor Market Information Center at 1-833-572-8421.

Definitions

25th Percentile – Twenty-five percent of all wage earners earn below the wage rate specified.

50th Percentile – Fifty percent of all wage earners earn below the wage rate specified. The 50th percentile is the median wage.

75th Percentile – Seventy-five percent of all wage earners earn below the wage rate specified.

Annual wage – In instances where hourly rates are reported, the annual wage is calculated by multiplying the hourly rate by 2,080 hours. This is the annual equivalent of working full-time at 40 hours per week.

Average wage – The sum of all reported wage rates divided by the number of rates.

Employment cost index (ECI) – The employment cost index measures changes in wages, salaries and benefits for civilian workers. This includes private industry and state and local government. The ECI is published by the federal Bureau of Labor Statistics and can be found at <http://stats.bls.gov/ncs/ect/>.

Estimated employment – An estimate of the total number of workers employed in a specific occupation.

Metropolitan Statistical Area (MSA) – A county or group of counties that are economically related having a principal city or urbanized area with a population of at least 50,000 people. A MSA may include contiguous counties from neighboring states and is also called a metro area.

Nonmetropolitan Area (NMA) – One of two groups of counties in Washington state not included in a metropolitan statistical area. Each county group is considered economically related.

Standard Occupational Classification (SOC) – The SOC system is used to sort and define nearly 867 occupations. The standardized system allows comparable research and reporting by individual states and the federal government. For more information on the SOC system, go to www.bls.gov/soc.

Effects of COVID-19 pandemic on the May 2020 occupational employment and wage statistics

Due to features of the Occupational Employment and Wage Statistics (OEWS) methodology, the May 2020 OEWS estimates do not fully reflect the impact of the COVID-19 pandemic. Estimates for a given reference period are based on a sample of 1.1 million business establishments collected in six semiannual panels for three consecutive years. Each year, two new semiannual survey panels are added, and the two oldest panels are dropped. Older panel wage data are aged to reflect the reference date of the estimates, and employment data are benchmarked to reflect known employment for the average of the two most recent panels. Using six data panels to produce each set of estimates allows data to be produced at very detailed levels of occupation, geography, and industry, but also means that sudden changes in staffing patterns or wages are reflected in the OEWS estimates only gradually.

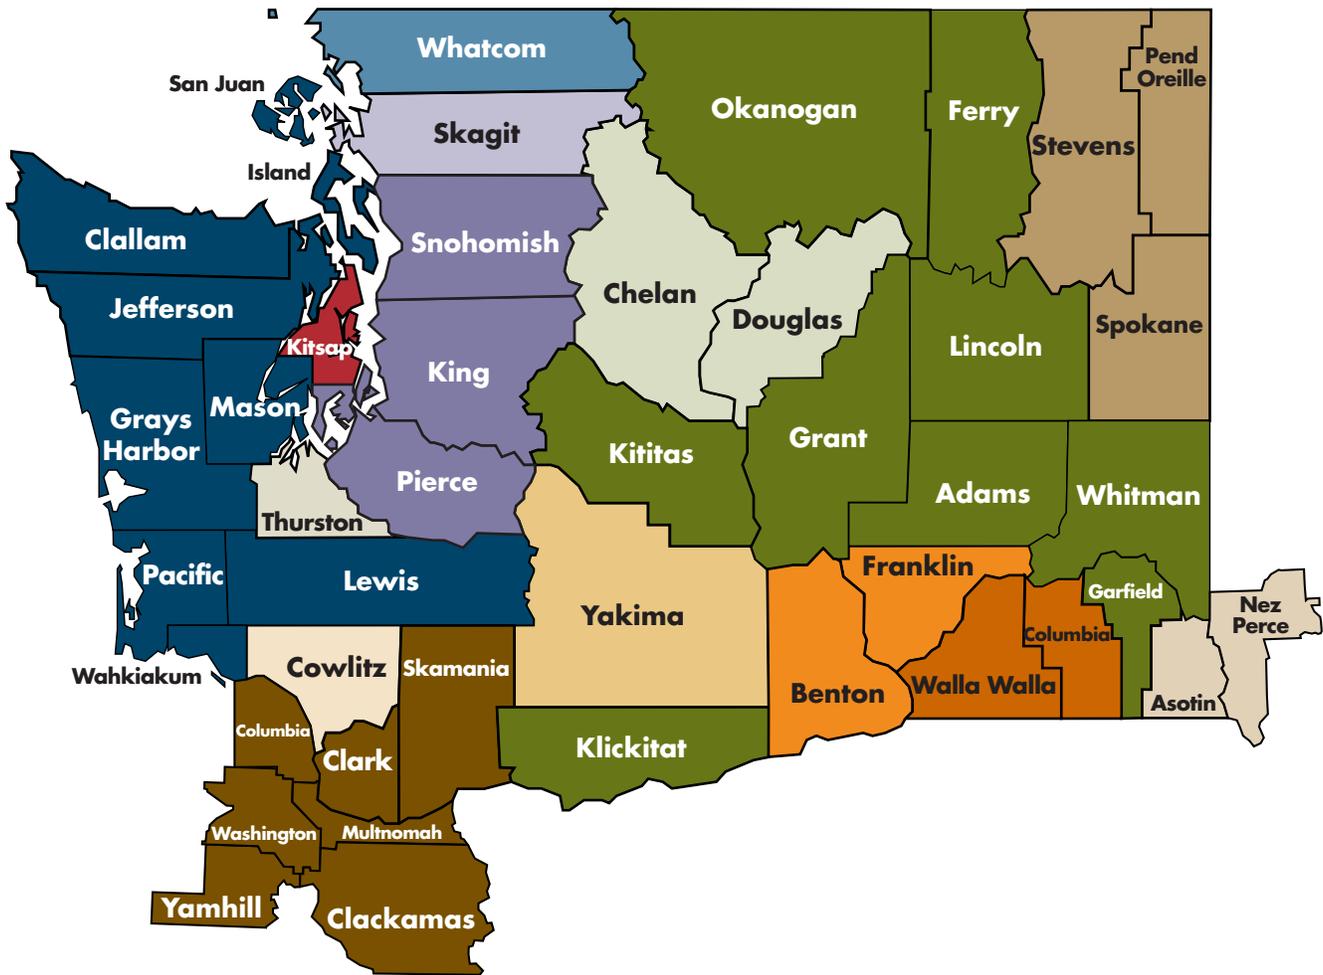

The May 2020 employment and wage estimates were calculated using data collected in the May 2020, November 2019, May 2019, November 2018, May 2018, and November 2017 semiannual panels. Because five of the six survey panels used to produce the estimates date from before the COVID-19 pandemic, only the most recent (May 2020) survey panel would reflect changes in occupational proportions related to the COVID-19 pandemic.

The employment from the six panels has been benchmarked to the average of the November 2019 and May 2020 employment from the Quarterly Census of Employment and Wages (QCEW) for each industry/area cell. The November 2019 QCEW employment data precede the COVID-19 pandemic, and therefore do not reflect the effects of the pandemic. The May 2020 QCEW data reflect the early employment effects of the COVID-19 pandemic. Because the OEWS employment estimates are benchmarked to the average of QCEW employment for November 2019 and May 2020, the estimates will reflect only part of the pandemic's impact on employment as of May 2020.

In addition, as a result of the pandemic, response rates for the November 2019 and May 2020 panels were lower in some areas. This is due to the timing of attempts to collect data from employers during the months following both reference dates. Lower response rates may negatively affect data availability and data quality. To minimize the impact, a supplemental nonresponse follow-up mailing and additional targeted nonresponse follow-up were conducted. To reduce follow-up questions from sampled establishments, the program made changes on the data collection website to clarify that establishments where all employees were working remotely, or were not working but received pay, should report their employment and wage data.

If you have questions, contact the Occupational Employment and Wage Statistics staff at https://www.bls.gov/oes/oes_con.htm.

Map of survey areas

- Bellingham, WA MSA – Whatcom County
- Bremerton-Silverdale, WA MSA – Kitsap County
- Kennewick-Richland, WA MSA – Benton and Franklin counties
- Clarkston (WA) and Lewiston (ID) MSA – Asotin, WA and Nez Perce, ID counties
- Longview, WA MSA – Cowlitz County
- Mount Vernon-Anacortes, WA MSA – Skagit County
- Olympia-Tumwater, WA MSA – Thurston County
- Vancouver (WA) and Portland-Hillsboro (OR) MSA – Clark and Skamania, WA; Clackamas, Columbia, Multnomah, Washington and Yamhill, OR counties
- Seattle-Tacoma-Bellevue, WA MSA – King, Pierce and Snohomish counties
- Spokane-Spokane Valley, WA MSA – Pend Orielle, Spokane and Stevens counties
- Walla Walla, WA MSA – Columbia and Walla Walla counties
- Wenatchee, WA MSA – Chelan and Douglas counties
- Yakima, WA MSA – Yakima County
- Western WA NMA – Clallam, Grays Harbor, Island, Jefferson, Lewis, Mason, Pacific, San Juan and Wahkiakum counties
- Eastern WA NMA – Adams, Ferry, Garfield, Grant, Kittitas, Klickitat, Lincoln, Okanogan and Whitman counties
