Consultants

The designation as an ASB does not mean that ESD will issue an Award; it merely indicates that at this moment in time, the bidder(s) appear to be responsive and responsible. This designation allows ESD to perform further analysis and ask for additional information as needed. This is also the point where bidder(s) may be invited to participate in an interview. ESD reserves the right not to Award any bidder who was originally announced as ASB.

Thank you to all bidders for your interest in doing business with the state.
We appreciate the time and effort you invested in your responses.
